

FLAT TOP EXTENDABLES

BUILT STRONGER, TO LAST LONGER

The Strength to weight ratio of Southern Cross Flat Top Extendable Semi-Trailers provides operators with in-service reliability and a trailer manufactured to cope with Australia's harshest conditions.

Custom Accessories

Custom Front & Rear Load Racks

Construction

- High-tensile steel is used extensively throughout the structure to provide maximum strength.
- The entire frame is sand-blasted and prime coated prior to a superior long lasting finish in your companies fleet colours.
- The comprehensive range of suspensions, axles, landing legs, components and fittings are selected for their proven reliability.
